THE CHINESE QUESTION.

Si Barra

Although there is no doubt that General Garfield is opposed to Chinese immigration, Democratic papers are striving to create the impression that he favors the movement. His position cept the marshals and aids, who will on this question is clearly stated in be mounted. It is said that Ex-Govhe favors the movement. His position his letter accepting the nemination to ernor Stanford, Ex Governor Low, the Presidency, in which the following Major-General Barnes and other well passage occurs: "The recent mevement of the Chi-

nese to our Pacific coast partakes but little of the qualities of such immmigration either in its purposes or results. It is too much like an importation to be welcomed without restriction; too much like an invasion to be looked upon without solicitude. We cannot consent to allow any form of servile labor to be introduced among us under the name of immigration. Recognizing the gravity of this subject, the present administration, supported by Congress, has sent to China a Commission of distinguished citizens for the pur-pose of such a modification of the expose of such a modification of the existing treaty as will prevent evils likely to arise in the future from the present situation. It is confidently believed that these diplomatic negotiations will be successful, without the loss of commercial intercourse between the two nations, which promises a great deal of reciprocal trade and the enlargement of our markets. Should these negotiations fail, it will be the duty of Congress to mitigate the evils duty of Congress to mitigate the evils already felt, and prevent their increase by such restrictions as, without vio-lence or injustice, will place upon a sure foundation the peace of our com-munities and the freedom and dignity

The following plank from the National Republican platform is expressive of the unmistakable attitude of the Republican party on this question;

"Since the authority to regulate immigration and intercourse between the United States and foreign nations rests with the Congress of the United States and its treaty-making powers, that the Republican party, regarding the unrestricted immigration of the Chinese as an evil of great magnitude, invokes it exercise of that power to to restrain and limit that immigration by the enand limit that immigration by the en-actment of such just, humane and reasonable provisions as will produce that result."

The GAZETTE has before taken occasion to point out the value to farmers of the great beds of chalk that are found in Nevada. It is one of the best things known to destroy alkali in the soil. Gypsum is a complete corrective of alkaline soils, but gypsum is scarce and comparitively expensive. There is in this neighborhood great abundance of a substance that is known as diatomaceous earth, such as is described in the following paragraph. It is a fine fire clay, and has been made into pipes. The Steam-boat ditch runs through an extensive deposit of it.

Sun, writing from San Francisco, has this to say of the agricultural value of

chalk:

"The law of compensation, which we predicted (in our letters) would surely soon reveal the existence of artificial manures in this country, where stable manure is impracticable in agriculture, appears likely to be illustrated very soon. All over California and Nevada are vast deposits, often 100 feet thick and miles in extent, of what is popularly called chalk, also pipe clay from its color. There are millions of acres of it. It is of light cream color. It is a polishing powder. It is pure silex, and is composed of the corselets of minute marine bivalves. In Germany poor folks grind it, and under the name of mountain flour (bergmeh) it is used to adulterate cereal flour. It is supposed to be nutritious. Dr. Harkness, of the Fhilosophical Society of Nevada, pronounces it death to the alkalis that poison every foot of soil in the two States. But what now is poison becomes a fertilizing element when incorporated with this adjacent element. It is like the nauscous white aage of Nevada—the first frost makes it the finest pasture."

A Remarkable Case of Shooting

Says the Carson Times: On Thursday night, as the Bodie stage from Bodie was nearing Aurora, one of the passengers, named Moody, formerly an employee of the Bodie postoffice, can employee of the Bodie postoffice, becoming cramped for room, requested the passenger sitting beside him, A. Freed, agent for Livingstone & Co., liquor dealers of San Francisco, to move along and give him more room. Mr. Freed replied that he was unable do so, when Moody drew a pistol and, placing it at Freed's back, fired, the shot penetrating the left lung. Moody was immediately removed from the stage, in which there were several terror-stricken women and children, was bound with cords and taken to Aurora. The wounded man was also taken to the same place, man was also taken to the same place, where he now lies with slight chance of recovery.

#### The Remains of Palm & Co.

The Virginia people have been very anxious to find the blackmailer who made such a sensation on the Comstock early in the week by the publication of a black list. The man's with all possible dispatch, as there are time orders to be filled. Molten metal will be flowing in the new works at issued in the name of "Palm & Co."

The rescal escaped from the Compton name is not known, but the list was issued in the name of "Palm & Co." The rascal escaped from the Comstock after receiving several severe beatings, and a warrant was issued for his arrest on charges of libel. He left Virginia in a badly-battered state, and the telegrams received by Constable Avery here, describing him, detail a variety of injuries to the face and head. Avery watched and waited in Reno in vain for the remains of Palm & Co. to appear, and learns that they were transported to Verdi in a buggy, whence they probably took the first train to California.

Wrinkled Faces.

It is a painful sight to see young ladies eir teens with wrinkled and prematurely old faces: nevertheless it is quite common the times the reason is very apparent. Owing to flaming advertisements and bogus certifi-cates, in which are used the names of eminent as and chemists, the unsuspecting and credulous have been induced to use som of the so-called liquid beautifiers, all of which are known be positively injurious, and if used for any length of time will destroy the complexion, so that it will be next to impos-s.ble to restore it. A Little Premature,

Asa Dawson was in Brookins' store this noon, buying some fireworks to be used in the celebration Monday night. He was smoking, and so was the clerk. Presently there was a s-s-i-z-z-, and then whiz! bang! pop! went the fireworks. Fifty dollars worth of fireworks went off in that shop before they fairly knew what was the matter. Brookins has always been considered a good Democrat, but the story has gone abroad that he cel-ebrated this morning over the returns from the elections.

If you go to the right place to get them. This is a mighty important point, for some people who assert that they sell cheap do nothing of the kind. We do not boast when we say that we defy competition in prices in anything in our line. Besides this we have only one price. We have no preferred customers. Everybody is treated alike at our establishment. Our stock is the largest and most complete ever offered in any part of this State. Everything we have is new. No old, musty and out-of date goods can be found on our shelves. We receive daily by rail and express the latest and best goods, which are obtained at first hand and sold at prices below those now prevailing in New York and Chicago. Let the people come and judge those now prevailing in New York and Chicago. Let the people come and judge of our prices and examine our stock before going into those humbugging, Cheap John shops, in which they drum into the ear of the customer that they sell at cost an leven below cost. Anybody with common sense must know that they lie. No storekeeper sells goods for the fun of the thing. We make a proft on everything we sell, as every honest merchant does, and don't print foolish falsehoods in the vain hope of decieving the public. One must make a profit to live. We particularly call attention to our full stock of fancy underwear, such as is kept nowhere else in Reno. This class of goods form one of our specialties. Orders from the country promptly attended to. Look out for the White Building with the Gold Sign.
